Slater’s extensive range of embossed Plastikard includes representations of brick, stone, roof tiles, and slates in various scales and different colours. Each illustration below shows a small section of a sheet, to scale (with an inset circle at 3x magnification), but the representation of the colours is only approximate. Unless otherwise stated, they are moulded in 0.020” (0.5mm) thick sheets, approximately 300 x 174mm. Please note that the sheet sizes and exact colour can vary between batches; the ‘Cotswold Stone’ and ‘Dressed Stone’ (0411 and 0415) sheets are about 10mm smaller all round than standard.
